### DEFEES CASES FROM MADISON COUNTY

Case Against R. K. Defee Dismissed—  
John Defee on Trial Charged  
With Murder.

The district court room presented a busy scene yesterday morning with two venues of sixty men each present and more than sixty witnesses on hand, in the Defee cases, brought to Brazos from Madison by a change of venue. ### WAS MAGNIFICENT OPENING

A. and M. College Had 426 Students on Grounds at 5 O'clock Yesterday Afternoon—Increased Last Night.

The A. and M. College has broken all records for the opening day. According to information received by the Eagle there were 426 old and new students on the grounds yesterday afternoon at 5 o'clock, with 150 freshmen registered. The number of arrivals was increased by the I. & G. N. afternoon train coming in later and the two Central trains' last night. Registration will continue today and tomorrow and recitations begin on Thursday.

The College authorities are much gratified by the way the young men of Texas are pouring in to the institution, and the only regret is that there is not more room to accommodate all who wish to come. Many improvements have been made in the way of repairs, and the campus presents a most attractive picture. When the notable additions in the way of buildings provided for by the legislature have been made the facilities of the institution will be very largely increased.

The indications are that the present year will be one of the most successful in the history of the College which has taken a deep hold upon the confidence of the people of Texas and is meeting with the most substantial evidence of appreciation.

W. L. Turner is here from Madisonville as a witness in the Defee case. Mr. Turner is preparing to start a new paper at Madisonville, The Star, which will make its appearance in the journalistic firmament about the middle of October. Mr. Turner is an experienced newspaper man and enjoys a large acquaintance, therefore his success is assured.

BY CARNES & WALLACE

BRYAN, TEXAS, SEPT 24, 1907.

There is a racket in Nashville today.  
The home-comers are glad they are alive.

One of the liveliest questions in Texas  
today is peanuts—not peanut politics,  
mind you.

The boll weevil has crossed the Missis-  
sippi in time to make himself snug in  
winter quarters. He will be heard from  
next summer.

Pearlie Tolliver, an Eagle Lake negress,  
has invented a new but very effective way  
of getting rid of an unwelcome suitor. She  
disembowled him.

Candidates for office in Washington  
county believe in the early bird theory;  
they are already announcing for office, sub-  
ject to the primaries in July.

Farmers and business men, met at Rock-  
dale Saturday and organized the Milam  
County Farmers' Fair Association with a  
capital stock of \$4,000, three-fourths of  
which was taken on the spot.

What right has President Roosevelt to  
object to the constitution adopted by the  
people of Oklahoma? He disregards the  
constitution of the United States whenever  
it happens to be in his way.

Isn't it strange that in the eternal dis-  
cussion of the irritating servant question  
nobody seems to think of Benjamin Frank-  
lin's advice: "If you would have a good  
servant and one that you like, serve your-  
self."

The San Antonio Express predicts an  
early, long and severe winter. We all  
know the Express is not a new comer and  
we are surprised that it is willing to be  
classed with the other sort of people who  
predict Texas weather.

Legislative amendments to the constitu-  
tion are generally voted down by the peo-  
ple, but if the next legislature will submit  
one reducing the number of members in  
the lower house the people will ratify it by  
acclamation.

With all its faults the democratic party  
has never been mean enough to keep a  
state out of the Union for partisan reasons.  
If the democrats had a majority in con-  
gress New Mexico and Arizona, as well  
as Oklahoma, would soon be states.

Ever since the beginning of the war be-  
tween the states, European spinners have  
been trying to find a country where cotton  
can be grown in competition with the crop  
of the Southern states. Experiments on a  
large scale have been made in every  
country where the climate seemed to favor  
success, and the effort has been continued  
down to the present time. If there were  
such a country it would have surely been  
found in the half century through which  
these experiments have been extended.  
The result has demonstrated that the South-  
ern states have, and will continue to have  
a practical monopoly of the production of  
cotton. It follows that if the producers  
could unite and stick together they can  
control the price. Will they do it? May  
prosperity attend the efforts of the Farm-  
ers' Union and the Southern Cotton As-  
sociation to this end.

New lignite mines are being discovered  
and opened at Rockdale and the supply  
seems to be unlimited, but transportation  
facilities are not equal to the demand.  
Capital to develop the mines seems to be  
ample and it is becoming for outsiders to  
get in. The proposition to establish elec-  
tric power plants at the mines and trans-  
mit the power to neighboring towns would  
solve the transportation question. Bryan  
needs the power for the College trolley  
line and several other projected enterprises.

The Fort Worth Star presumes upon the  
ignorance of its readers when it speaks of  
Daniel's comet "skipping off through  
space tail first," and "backing up through  
space with its headlight on behind" after  
"turning a handspring around the perihel-  
ion bar," as if such actions were peculiar.  
A comet keeps its head toward the sun in  
every part of its orbit and the cawfishing  
of this one is nothing peculiar. Possibly  
they are too modest to allow Phoebeus to  
see their nether extremities.

A very prominent railroad official, who  
for years has been observing the work of  
Agricultural and Mechanical men, said  
not long ago "The thing I like about  
the Agricultural and Mechanical college  
is that it sends out good workmen and en-  
gineers, and not politicians."—Houston  
Post.

Never forfeit the good will of a neighbor  
over a difference of opinion. All minds  
do not run in the same channel and each  
man is entitled to his opinions. Your  
neighbor may differ from you in politics,  
religion and the temperance question and  
still prove a friend in need when trouble  
comes your way.—Beaumont Enterprise.

A woman who gives her name as Miss  
Lula Clarke has made an affidavit to the ef-  
fect that a man named Turner Igo killed  
Governor Goebel of Kentucky. Is it pos-  
sible that a woman could have kept a secret  
so long?

A Paris, Texas, special to the Houston  
Post of Sunday says that two orphan boys  
for whom homes were found in Lamar  
county by Rev. I. Z. T. Morris of Ft.  
Wort have inherited property worth nearly  
\$10,000 in Brazos county by the death of  
a relative. The names of the boys are  
Gus and Henry Price, the elder now being  
about twenty years old and the younger  
seventeen. The Eagle understands that  
the property referred to is in litigation and  
embraces 194 acres of Brazos bottom land  
in the south end of the county.

This year the Y. M. C. A. will intro-  
duce a new feature known as "College  
Night," which has been had for a number  
of years in several of the most progressive  
A. & M. colleges of the South. On this  
night there will be given a mass meeting  
of the students body at the Assembly Hall  
immediately after supper, at which time  
interesting talks will be given on the sev-  
eral features of college life. All students,  
both the new and old, are cordially invited  
to attend.—Battalion.

## TRIED TO STEAL CORPSE

Bold Attempt of Ghouls Was a  
Failure Owing To

VIGILANCE OF A CANINE.

One of the Villains Climbed Through  
a Window Into the Room in Which  
the Body of a Lady Lay, but Dog  
Barked and He Flew.

Columbus, O., Sept. 23.—A daring attempt to steal the corpse of Mrs. L. L. Northstone, who died of a disease that attending physicians and the county coroner could not diagnose, was prevented by a house dog, which aroused the dead-watch seated in an adjoining room. A white man of professional appearance was just climbing into a window from which the glass had been removed when the watchers rushed into the room in which the corpse lay.

On the lawn stood a negro in livery, while a third man was attending the team attached to an undertaker's cart. The men hastily mounted the cart and drove away at breakneck speed, followed by revolver shots from policemen who had been lodged against a prominent practitioner, whom those on watch claim they recognized climbing into the window.

The attempt is one of the boldest ever known in this city, where, prior to the passage of the state law giving the bodies of paupers to science, body snatching was common. Those concerned did not even take the trouble to remove the metal name plate of the undertaker from the cart and it has furnished the police the best clue.

WHY HE BEAT HIS WIFE.

Did Not Want His Fellow Men to  
Think He Was Afraid.

Niles, O., Sept. 23.—Vincenzo Ragazzo, an Italian, arrested for wife beating, when given a hearing was highly indignant, saying it was his privilege to beat his wife when she was disobedient; that she belonged to him just as his children did, and should be punished when she needed it.

The mayor told him that in the United States wives were not children, but were equal to the husband, and that the same laws protected both. Ragazzo was much surprised to learn this, but thought it a good law. "I love my wife," he said, "but in Italy we beat our wives; my fellow men beat their wives and I don't want them to think I am afraid to beat mine."

## NO LIQUOR SELLING.

Club Promoters Must Make Affidavit to This Effect.

Austin, Sept. 23.—Secretary of State Dashiell has made a very important ruling, which will in future, affect all proposed corporations that have for their object benevolent, charitable, educational and scientific, painting, music, fine arts, bicycle clubs and literary undertakings. According to this ruling, charters of this nature will not be filed in the future unless accompanied by an affidavit of the incorporators to the effect that it is not the purpose of said proposed corporation to engage in any business which will require the issuance of a United States retail liquor dealer's license for the sale of spirituous, vinous or malt liquors. Up to the present time it has been the practice in many instances for such proposed corporations to obtain a charter with the objects indicated above as its purpose, and then sell liquor to its members by procuring a Federal license and operate as a social club. In the future if affidavits of incorporators disclose the fact that they propose to sell liquor under the idea of the place being a club a charter will be refused. This will prohibit the chartering of all such social clubs in the future unless they can make affidavit as indicated above. It is learned that in the near future anti-trust suits are likely to be filed against several lumber concerns operating in Texas.

## COTTONSEED CRUSHERS.

Meet in Extraordinary Session  
at Crescent City.

New Orleans, Sept. 23.—The Interstate Cottonseed Crushers' association, representing a capitalization in the south of nearly \$1,000,000,000, met here Monday in extraordinary session preparatory to the International Spinners' convention at Atlanta next month. Means to prevent the enormous losses in export business were discussed. Careless handling of cargoes and an unfavorable tariff were declared the cause of annual losses totalling about \$3,000,000.

A feature was the address of J. L. Benton of Monticello, Ga., former special agent of the department of commerce and labor, who investigated cottonseed products business abroad. This was his first address on the results of his work since his returning to the United States. He spoke on handling cottonseed meal.

President L. A. Ransom of Atlanta called the meeting to order. Other speakers were J. W. Allison of Ennis, Tex.; C. A. Adams of Georgia and Professor J. H. Connell of Dallas, Tex.

## MOSE DOSSETT SWINGS

Tried to Assault White Woman  
Ninety Years Old.

ADMITTED HE WAS GUILTY

During a Downpour of Rain, While  
Being Hauled to Mobile, Negro Was  
Taken From Vehicle and Suspended  
From Limb of Tree.

Pritchard Station, Ala., Sept. 23.—Mose Dossett, a negro, was lynched here Sunday for an attempted criminal assault upon Mrs. J. Breeder, a white woman ninety years old. Dossett was hanged from the same tree from which two negroes, Jim Robinson and Will Thompson, were lynched almost exactly one year ago for assault upon small white girls.

Dossett's alleged assault was committed Saturday night at Whistler. Mrs. Breeder identified him as her assailant, and he was then spirited away from Whistler by two deputy sheriffs in a wagon en route for Mobile for safe keeping. About 2 o'clock Sunday morning a downpour of rain, while the wagon was passing through some woods, masked and armed men sprang out on all sides, commanding the deputies to give up the prisoner. No resistance was made. Dossett confessed to the crime, and was immediately hanged, and one shot was fired to hasten his death.

The lynching of Thompson and Robinson last year was very similar, both being en route to Mobile for safe keeping. In this case the cunning of the officers guarding them saved their lives for nearly twenty-four hours against attempts of several mobs. Pritchard Station is within six miles of Mobile.

NEGRO NEARLY LYNCHED.

Henry Dalton Fatally Shot a Big Four  
Engineer and Tried to Escape.

Columbus, O., Sept. 23.—Henry Dalton, a negro who fatally shot Chris. Horn, a Big Four Engineer at Delaware, O., was brought to Columbus by Sheriff Matthews to escape violence. Dalton was in abject terror, and plainly showed his relief when brought into the city prison.

The shooting was wanton and unprovoked. James Knowlton, a quartermaster at Sunbury, and Dalton, who was employed at the quarry, were riding in a buggy when it crashed into the carriage driven by Horn. The engineer upbraided the men for their carelessness, when Knowlton went back and started to fight with Horn. Knowlton was getting the worst of it, when Dalton drew a revolver and shot Horn and then attempted to escape. He was captured and locked in the county jail. Horn died of his wound Sunday morning, and as soon as the news spread the situation became so threatening Sheriff Matthews decided to remove his prisoner secretly.

BAGS BIG BEAR.

Negro Kills One That Weighs Four  
Hundred Pounds.

Wilton, La., Sept. 23.—M. H. Thompson, one of the most celebrated negro bear hunters of the Louisiana swamps, killed a 400-pound bear in the swamps back of this place, in East Carroll parish. He has a pack of fourteen dogs, and had no trouble in running Bruin down. This is the very section where it has been decided for President Roosevelt to hunt. It is hinted in this section that Thompson may become a member of the presidential party in camp.

PRESIDENT PLEASED.

They Won For Prohibition.

Lawton, Okla., Sept. 23.—A telegram was sent President Roosevelt by the Oklahoma convention of the Woman's Christian Temperance Union asking that he grant his acceptance of the constitution, with the prohibition amendment, so that the new state may have prohibition at once.
